

SDIEA - Who are we?

Southern Downs Industry Education Association is a non for profit organisation supporting people across the Southern Downs region find access to training, education support and employment opportunities. With close links to community organisations all across Queensland, we will help you achieve your goals!

MEM20413 - Certificate II in Engineering Pathways

What is it?

This course is designed as a pathways opportunity. It's an exciting combination of science and technology.

This will assist you in pursuing a career as a boilermaker, sheet metal fabricator, welder, fitter and turner, casting and moulding, electrical fitting and much, much more!

What can it do for Me?

A certificate II in engineering is your first step to an engineering apprenticeship or furthering your study in design and drafting.

When is it?

Start: 25.03.2024

Days: Wednesday & Thursdays
TAFE campus Warwick

End: 12.07.2024

In partnership with
TAFE South West
